

## Technical information

Art. No 620-1000

|                        | Ref.           | Value            | Unit               |
|------------------------|----------------|------------------|--------------------|
| Profile dimension      |                | 64x65            | mm                 |
| General tolerance      |                | EN 755-9         |                    |
| Lenght                 |                | 5800             | mm                 |
| Material               |                | 6060 T66         | aluminum           |
| Surface treatment      |                | Anodized natural |                    |
| Profile area           | A              | 790              | mm <sup>2</sup>    |
| Weight per meter       | m              | 2,1              | kg                 |
| Area moment of inertia | I <sub>x</sub> | 253414,1         | mm <sup>4</sup>    |
|                        | I <sub>y</sub> | 427501,96        | mm <sup>4</sup>    |
| Section modulus        | W <sub>x</sub> | 7797,36          | mm <sup>3</sup>    |
|                        | W <sub>y</sub> | 13359,44         | mm <sup>3</sup>    |
| Modulus of elasticity  | E              | 70               | kN/mm <sup>2</sup> |
